Summary

Computer Science undergraduate at VIT Vellore with hands-on experience across **product discovery, product analytics, AI products, growth, and go-to-market**. Worked with founders and cross-functional teams to identify user problems, analyze product behaviour, and drive initiatives from **research to execution**. Builds AI-powered prototypes using **Python, SQL, LLMs, and APIs**, with practical experience in experimentation, user research, competitive analysis, and data-driven product decisions.

Education

Vellore Institute of Technology — Vellore, India
B.Tech, Computer Science & Engineering — *2023 – 2027*

Experience

Product Growth Intern — September 2026 – Present
Mobile Premier League (MPL)
- Own growth for new games across the **US and Brazil markets**, managing **80+ creators** across sourcing, onboarding, briefing, content review, editing, approval, and publishing.
- Analyze **market and product trends** to evaluate competing games, identify products gaining traction and the factors driving user adoption, and translate insights into **product prioritization and launch strategies**.
- Built a **performance linked payout pipeline** using creator level view thresholds to reduce inefficient spend, improve **budget efficiency**, and prioritize higher-performing creators.

Founder's Office Intern — July 2026 – September 2026
Assessli — *Remote*
- Worked directly with founders on **product, growth, and GTM strategy**, launching a Pioneer Program across **9 campuses** to expand product awareness and student acquisition.
- Analyzed **creator acquisition funnels** and sourced **23 creators within a INR 40K budget**, while building an **n8n + LLM outreach workflow** using Claude, Gemini, and ChatGPT.

Growth Intern — June 2026 – July 2026
Hintro AI — *Remote*
- Conducted **200+ customer discovery calls and product demos**, identifying recurring user pain points and translating feedback into onboarding and workflow improvements.
- Built a structured **B2B prospecting and scoring system** and designed a **Campus Ambassador acquisition experiment** that onboarded **23 students across colleges in India**.

Design & Product Intern — Aug 2024 – Oct 2024
Moon Finance | Fintech Startup — *Vellore, Tamil Nadu*
- Analyzed **product funnels and user behaviour** to identify onboarding drop-offs and opportunities to improve activation, retention, and customer journeys.
- Used **Google Analytics, Figma, and competitive research** to evaluate user flows, identify product gaps, and support product and growth decisions in a fintech environment.

Projects

AI Business Intelligence Copilot | *Python, SQL, Flask, Gemini, REST APIs* GitHub — 2025
- Built an **AI-powered analytics product** enabling non-technical users to query business data through natural language.
- Integrated **SQL, LLMs, REST APIs, and automated analysis** to transform user queries into contextual business insights and actionable outputs.
- Added **forecasting and churn prediction** workflows to analyze business trends and user behaviour for data-driven decision making.

WaveCmd – Gesture Controlled Desktop Interface | *Python, OpenCV, MediaPipe, SVM, PyAutoGUI* — 2025
- Built a real-time gesture-controlled interface achieving **92.3% accuracy** across **4,200+ training samples**.
- Designed an end-to-end interaction workflow covering gesture detection, classification, and OS-level actions.
- Analyzed interaction flow and optimized frame processing to improve **responsiveness and reliability** of the user experience.

Technical Skills

Product: Product Strategy, Product Analytics, User Research, Market Research, Competitive Analysis, Product Discovery, Go-to-Market Strategy, User Flows

Analytics: SQL, Python, Excel, Google Analytics, Data Analysis, Funnel Analysis, Customer Behaviour Analysis **AI & Automation:** LLMs, Prompt Engineering, n8n, Claude, Gemini, ChatGPT, APIs, AI Workflows
Tools: Figma, Streamlit, Google Sheets, Git/GitHub

Achievements & Certifications

E-Cell VIT – Marketing & Outreach Team, contributed to **brand outreach, partnerships, and event marketing** for E-Summit and other entrepreneurship initiatives.
Oracle Cloud Infrastructure 2025 Generative AI Professional – Oracle Certified
Oracle Java Foundations – Oracle Certified
1st Prize, Technica'24 Hackathon – VIT Vellore
